

ENGINEERED TO LAST

Alpine Shredders has over 100 years experience in the Transportation Equipment Business and over 50 years combined experience in Shredding Systems Engineering. And it is built into every Alpine Shred Truck we make...standard.

We have engineered Mobile Shredding Equipment that is simple to maintain - with fewer moving parts than competitive equipment. Our low-RPM, high-torque shredder assembly increases the life of all hydraulics, pumps, gearboxes and shredder shafts. High tip force and aggressive hook profile ensures superior throughput even on the toughest dense paper.

The end result is a shred truck that requires low maintenance and is **ENGINEERED TO LAST**.

Our solid cutter shaft is renowned for being the most solid & reliable available in the industry.

PREMIUM COMES STANDARD

All of our models include critical standard features that ensure your operating experience is efficient, reliable and safe.

STANDARD FEATURES INCLUDE:

- Robust shredder assembly with solid cutter shafts
 - Individual direct drive planetary gearboxes
 - Remote curbside control with engine / PTO and shredder start / stop
 - Alpine ShurGrip cart lift system
 - Shred Load Detection fuel saver
 - Full vision system including safety backup camera
 - OSHA compliant integrated operator safety system
 - Low travel height and low center of gravity
 - Heavy duty body construction
 - Galvanized deck
- Optional built in Hard Drive Shredder (available in most models)

Alpine Shredders will work with you to determine your shredding system and chassis platform needs. We integrate with a wide variety of major chassis manufacturers - Perterbilt, Freightliner, Kenworth, International, Hino - and find just the right combination to suit your business objectives and budget.

2015 MODELS

ENGINEERED TO LAST

STAK SERIES

The best value in fully featured shred trucks, the **STAK SERIES** is engineered and built tough to outlast all competition. If you want proven reliability, less maintenance, massive throughput and payload - look no further.

- Available in 3 models: STAK 19, STAK 26 & STAK 33
- Alpine solid shaft shredder
- Premium, low profile aerodynamic body
- Safety strobe lights & backup camera
- Shred Load Detection fuel saver
- Fully featured premium chassis
- **STAK 19** – NON CDL shreds at 3,750 lbs/hr* with up to 4,000 lbs payload
- **STAK 26** – NON CDL shreds up to 6,000 lbs/hr* with up to 8,500 lbs payload
- **STAK 33** – CDL shreds up to 7,500 lbs/hr* with up to 13,000 lbs payload

V-MAX

Looking for maximum power in a full sized truck? The **V-MAX** shreds up to **10,000 LBS** per hour and leaves all other trucks in this class in the dust. This is the fastest full sized shred truck on the market today.

- Alpine solid shaft shredder
- Premium, low profile aerodynamic body
- Safety strobe lights & backup camera
- Shred Load Detection fuel saver
- Fully featured premium chassis
- CDL shreds at an incredible **10,000 lbs/hr*** with up to 12,500 lbs payload

ENGINEERED TO LAST

DUAL SHRED

The **DUAL SHRED** sits in a class all its own. It tears though a 7,000+ lbs/hr in commercial mode - but can switch to high security modes at the touch of a button. It's like having two shred trucks in one.

- Alpine solid shaft shredder with active Rotary Feed Hopper
- Alpine ONE Granulator
- Premium aerodynamic body with safety strobe lights
- Shred Load Detection fuel saver
- 33,000 CDL premium chassis with 10,000 lbs payload
- **Commercial mode** shreds at 7,000 lbs/hr*
- **DX mode** - double shred no screen – shreds at 3,500 lbs/hr*
- **High Security mode** with 3/4" screen shreds at 1,750 lbs/hr*
- **Ultra High Security mode** with 5/16" screen shreds at 1,200 lbs/hr*

*Throughput varies with material
