

## OUR ADVANTAGE IS SIMPLE

Over the past two decades, we've stood by our philosophy that simple is smart. Simple is superior. That's why our Mobile Shredding Equipment is designed with fewer moving parts, ensuring easy maintenance, reliability and durability.

Our low-RPM, high-torque shredder assembly increases the life of all hydraulics, pumps, gearboxes and shredder shafts. High tip force and aggressive hook profile ensures superior throughput even on the toughest dense paper.

The result is a shred truck that requires low maintenance and is **ENGINEERED TO LAST.**

AlpineShredders.com

i-SIGMA<sup>™</sup> CORPORATE PARTNER

**THE ALPINE STAK SERIES 26 & 33**  
**THE BEST VALUE IN FULLY FEATURED SHRED TRUCKS**

## PREMIUM COMES STANDARD

All of our models include critical standard features that ensure your operating experience is efficient, reliable and safe.

### STANDARD FEATURES INCLUDE:

- Robust shredder assembly with solid cutter shafts
- Individual direct drive planetary gearboxes
- Remote curbside control with engine / PTO and shredder start / stop
- Alpine ShurGrip cart lift system
- Shred Load Detection fuel saver
- Full vision system including safety backup camera
- OHSA compliant integrated operator safety system
- Low travel height and low center of gravity
- 10% lower body for improved aerodynamics and better fuel efficiency
- Heavy duty body construction
- Galvanized steel deck
- Keith Walking Floor offload system

*Our solid cutter shaft is renowned for being the most solid & reliable available in the industry.*

*Optional Built in Hard Drive Shredder  
(available in most models)*
